Document Summary

English Language Proficiency Assessments for California (ELPAC) Electronic Summary Reports comprise summary records of student data aggregated by grade level and student group. The reports are downloadable as comma-separated values (.csv) files from the ELPAC Test Operations Management System located at <https://mytoms.ets.org/TOMS>.

Additional Resources and Definitions

- ELPAC website—<https://www.elpac.org/>
- CDE CALPADS web page—<https://www.cde.ca.gov/ds/sp/cl/>

Acronyms and Initialisms

Abbreviation	Term
CALPADS	California Longitudinal Pupil Achievement Data System
CDE	California Department of Education
CDS	County–District–School
ELAS	English Language Acquisition Status
ELPAC	English Language Proficiency Assessments for California
ETS	Educational Testing Service
IE	Initial ELPAC
LEA	Local Educational Agency
NPS	Nonpublic, nonsectarian school
SE	Summative ELPAC
TOMS	Test Operations Management System

Include Indicators

Include Indicator (Include indicators are used to determine which students and scores are included in the aggregated formulas.)	Description
<p>N</p>	<p>Student did not test and received a condition code of "NT."</p>
<p>T</p>	<p>Student tested and did not meet the participation rule or received an attemptedness value of "P" from the scoring system.</p>
<p>Y</p>	<p>Student completed the test, received a valid score, or received an attemptedness value of "Y" from the scoring system.</p>

Initial ELPAC Electronic Summary Report File Layout

Field Name	Description
Grade	This is the student’s grade at the start of the first domain test.
Student Group	This is the student demographic group. Refer to the table that follows, Demographic Identification for Initial ELPAC .
Number Enrolled	This field is defined by the total number of students enrolled, calculated at the grade and demographic level of the selected LEA.
Number Tested	This field is defined by the total number of students tested with include indicator of "Y" and "T," calculated at the grade and demographic level of the selected LEA.
Number Tested with Scores	This field is defined by the total number of students tested with scores with include indicator of "Y", calculated at the grade and demographic level of the selected LEA.
Overall Mean Scale Score	The sum of scale scores for students tested with scores divided by the number of students tested with scores. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Novice English Learner Performance Level Percentage	The sum of the number of students tested with scores at Novice English Learner performance level (Level 1) divided by the sum of the number of students tested with scores at all performance levels in the selected LEA multiplied by 100). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Novice English Learner Performance Level Count	The sum of the number of students tested with scores at Novice English Learner performance level (Level 1). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y".
Intermediate English Learner Performance Level Percentage	The sum of the number of students tested with scores at Intermediate English Learner performance level (Level 2) divided by the sum of the number of students tested with

Field Name	Description
	scores at all performance levels multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Intermediate English Learner Performance Level Count	The sum of the number of students tested with scores at the Intermediate English Learner performance level (Level 2). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Initial Fluent English Proficient (IFEP) Performance Level Percentage	The sum of the number of students tested with scores at IFEP performance level (Level 3) is divided by the sum of the number of students tested with scores at all performance levels at the selected LEA multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Initial Fluent English Proficient (IFEP) Performance Level Count	The sum of the number of students tested with scores at IFEP performance level (Level 3). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Total number of students at all levels—Overall Performance Level	The sum of the number of students tested with scores at all performance levels (Overall). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Beginning to Develop Performance Level—Oral Language Percentage	The sum of the number of students tested with scores at the "Beginning to Develop" performance level (Level 1) of the Oral Language is divided by the sum of the number of students tested with scores at all performance levels of the oral language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Beginning to Develop Performance Level—Oral Language Count	The sum of the number of students tested with scores at "Beginning to Develop" performance level (Level 1) of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."

Field Name	Description
Somewhat to Moderately Developed Performance Level—Oral Language Percentage	The sum of the number of students tested with scores at "somewhat to moderately developed" performance level (Level 2) of the Oral divided by the sum of the number of students tested with scores at all performance levels of the Oral Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Somewhat to Moderately Developed Performance Level—Oral Language Count	The sum of the number of students tested with scores at "somewhat to moderately developed" performance level (Level 2) of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Well Developed Performance Level—Oral Language Percentage	The sum of the number of students tested with scores at "well developed" performance level (Level 3) of the Oral Language is divided by the sum of the number of students tested with scores at all performance levels of the Oral Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Well Developed Performance Level—Oral Language Count	The sum of the number of students tested with scores at "well developed" performance level (Level 3) of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Total number of students for all levels—Oral Language	The sum of the number of students tested with scores at all performance levels of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Beginning to Develop Performance Level—Written Language Percentage	The sum of the number of students tested with scores at "Beginning to Develop" performance level (Level 1) of the Written Language divided by the sum of the number of students tested with scores at all performance levels of the Written Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."

Field Name	Description
Beginning to Develop Performance Level—Written Language Count	The sum of the number of students tested with scores at " Beginning to Develop " performance level (Level 1) of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Somewhat to Moderately Developed Performance Level—Written Language Percentage	The sum of the number of students tested with scores at "somewhat to moderately developed" performance level (Level 2) of the Written Language divided by the sum of the number of students tested with scores at all performance levels of the Written Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Somewhat to Moderately Developed Performance Level—Written Language Count	The sum of the number of students tested with scores at "somewhat to moderately developed" performance level (Level 2) of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Well Developed Performance Level—Written Language Percentage	The sum of the number of students tested with scores at "well developed" performance level (Level 3) of the Written Language divided by the sum of the number of students tested with scores at all performance levels of the Written Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Well Developed Performance Level—Written Language Count	The sum of the number of students tested with scores at "well developed" performance level (Level 3) of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Total number of students for all levels—Written Language	The sum of the number of students tested with scores at all performance levels of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Demographic Identification	The student demographic data is derived from CALPADS and reflects student demographics at the time the student completes testing.

Field Name	Description
	Refer to the table that follows, Demographic Identification for Initial ELPAC .

Summative ELPAC Electronic Summary Report File Layout

Field Name	Description
Grade	This is the student’s grade at the start of the first domain test.
Student Group	This is the student demographic group. Refer to the table that follows, Demographic Identification for Summative ELPAC .
Total Number Enrolled	This field is defined by the total number of students enrolled, calculated at the grade and demographic level of the selected LEA.
Number Tested	This field is defined by the total number of students tested with include indicator of "Y" and "T," calculated at the grade and demographic level of the selected LEA.
Total Number Tested with Scores	This field is defined by the total number of students tested with scores with include indicator of "Y", calculated at the grade and demographic level of the selected LEA.
Overall Mean Scale Score	The sum of scale scores for students tested with scores in the selected LEA divided by the number of students tested with scores. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Overall Performance Level 1 Percentage	The sum of the number of students tested with scores at Overall Performance Level 1 divided by the sum of the number of students tested with scores at all performance levels multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Overall Performance Level 1 Count	The sum of the number of students tested with scores at Overall Performance Level 1. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Overall Performance Level 2 Percentage	This is the percentage of students tested with scores at Overall Performance Level 2 divided by the sum of the number of students tested with scores at all performance levels multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."

Field Name	Description
Overall Performance Level 2 Count	The sum of the number of students tested with scores at Overall Performance Level 2. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Overall Performance Level 3 Percentage	This is the percentage of students tested with scores at Overall Performance Level 3 divided by the sum of the number of students tested with scores at all performance levels multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Overall Performance Level 3 Count	The sum of the number of students tested with scores at Overall Performance Level 3. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Overall Performance Level 4 Percentage	This is the percentage of students tested with scores at Overall Performance Level 4 divided by the sum of the number of students tested with scores at all performance levels multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Overall Performance Level 4 Count	The sum of the number of students tested with scores at Overall Performance Level 4. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Total number of students for all levels—Overall	This is the total number of students tested with scores at all performance levels. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Mean Scale Score	The sum of scale scores for students tested with scores in Oral Language divided by the number of students tested with scores in Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 1 Percentage	The sum of the number of students tested with scores at Performance Level 1 of Oral Language divided by the sum of the number of students tested with scores at all performance levels of Oral language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 1 Count	The sum of the number of students tested with scores at Performance Level 1 of the Oral Language. This

Field Name	Description
	field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 2 Percentage	The sum of the number of students tested with scores at Performance Level 2 of the Oral Language divided by the sum of the number of students tested with scores at all performance levels of the Oral Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 2 Count	The sum of the number of students tested with scores at Performance Level 2 of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 3 Percentage	The sum of the number of students tested with scores at Performance Level 3 of the Oral Language divided by the sum of the number of students tested with scores at all performance levels of the Oral Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 3 Count	The sum of the number of students tested with scores at Performance Level 3 of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 4 Percentage	The sum of the number of students tested with scores at Performance Level 4 of the Oral Language divided by the sum of the number of students tested with scores at all performance levels of the Oral Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Oral Language Performance Level 4 Count	The sum of the number of students tested with scores at Performance Level 4 of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Total number of students for all levels—Oral	The sum of the number of students tested with scores at all performance levels of the Oral Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Mean Scale Score	The sum of scale scores for students tested with scores in Written Language divided by the number of students tested with scores in Written Language. This

Field Name	Description
	field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Performance Level 1 Percentage	The sum of the number of students tested with scores at Performance Level 1 of the Written Language divided by the sum of the number of students tested with scores at all performance levels of the Written Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Performance Level 1 Count	The sum of the number of students tested with scores at Performance Level 1 of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Performance Level 2 Percentage	The sum of the number of students tested with scores at Performance Level 2 of the Written Language divided by the sum of the number of students tested with scores by all performance levels of the Written Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Performance Level 2 Count	This is the total number of students tested with scores at Performance Level 2 of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Performance Level 3 Percentage	The sum of the number of students tested with scores at Performance Level 3 of the Written Language divided by the sum of the number of students tested with scores by all performance levels of the Written Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Performance Level 3 Count	This is the total number of students tested with scores at Performance Level 3 of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Written Language Performance Level 4 Percentage	The sum of the number of students tested with scores at Performance Level 4 of the Written Language divided by the sum of the number of students tested with scores by all performance levels of the Written Language multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”

Field Name	Description
Written Language Performance Level 4 Count	This is the total number of students tested with scores at Performance Level 4 of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Total number of students for all levels—Written	This is the total number of students tested with scores at all Performance Levels of the Written Language. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Listening Domain Beginning Percentage	The sum of the number of students tested with scores at the "Beginning" performance level (Level 1) for the entity of the Listening domain divided by the sum of the number of students tested with scores at all performance levels of the Listening domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Listening Domain Beginning Count	The sum of the number of students tested with scores at the "Beginning" performance level (Level 1) of the Listening domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Listening Domain Somewhat/Moderately Percentage	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Listening domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Listening domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Listening Domain Somewhat/Moderately Count	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Listening domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Listening Domain Well Developed Percentage	The sum of the number of students tested with scores at the "Well Developed" performance level (Level 3) of the Listening domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Listening domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”

Field Name	Description
Listening Domain Well Developed Count	The sum of the number of students tested with scores at the "Well Developed" performance level (Level 3) of the Listening domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Total number of students for all levels—Listening	The sum of the number of students tested with scores at all performance levels of the Listening domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Speaking Domain Beginning Percentage	The sum of the number of students tested with scores at the "Beginning" performance level (Level1) of the Speaking domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Speaking domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Speaking Domain Beginning Count	The sum of the number of students tested with scores at the "Beginning" performance level (Level1) of the Speaking domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Speaking Domain Somewhat/Moderately Percentage	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Speaking domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Speaking domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Speaking Domain Somewhat/Moderately Count	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Speaking domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Speaking Domain Well Developed Percentage	The sum of the number of students tested with scores at the "Well Developed" performance level (Level 3) of the Speaking domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Speaking domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."

Field Name	Description
Speaking Domain Well Developed Count	The sum of the number of students tested with scores at the "Well Developed" performance level (Level 3) of the Speaking domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Total number of students for all levels—Speaking	The sum of the number of students tested with scores at all performance levels of the Speaking domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Reading Domain Beginning Percentage	The sum of the number of students tested with scores at the "Beginning" performance level (Level 1) of the Reading domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Reading domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Reading Domain Beginning Count	The sum of the number of students tested with scores at the "Beginning" performance level (Level 1) of the Reading domain (for the entity). This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Reading Domain Somewhat/Moderately Percentage	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Reading domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Reading domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Reading Domain Somewhat/Moderately Count	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Reading domain for the entity. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of "Y."
Reading Domain Well Developed Percentage	The sum of the number of students tested with scores at the "Well Developed" performance level (Level 3) of the Reading domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Reading domain (for the entity) multiplied by 100. This field is calculated at the

Field Name	Description
	grade and demographic level of the selected LEA with the include indicator of “Y.”
Reading Domain Well Developed Count	The sum of the number of students tested with scores at the 'Well Developed' performance level (Level 3) of the Reading domain for the entity. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Total number of students for all levels—Reading	The sum of the number of students tested with scores at all performance levels of the Reading domain for the entity. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Writing Domain Beginning Percentage	The sum of the number of students tested with scores at the "Beginning" performance level (Level 1) of the Writing domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Writing domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Writing Domain Beginning Count	The sum of the number of students tested with scores at the "Beginning" performance level (Level 1) of the Writing domain for the entity. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Writing Domain Somewhat/Moderately Percentage	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Writing domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Writing domain (for the entity) multiplied by 100. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Writing Domain Somewhat/Moderately Count	The sum of the number of students tested with scores at the "Somewhat or Moderately" performance level (Level 2) of the Writing domain for the entity. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Writing Domain Well Developed Percentage	The sum of the number of students tested with scores at the "Well Developed" performance level (Level 3) of the Writing domain for the entity divided by the sum of the number of students tested with scores at all performance levels of the Writing domain (for the entity) multiplied by 100. This field is calculated at the

Field Name	Description
	grade and demographic level of the selected LEA with the include indicator of “Y.”
Writing Domain Well Developed Count	The sum of the number of students tested with scores at the "Well Developed" performance level (Level 3) of the Writing domain for the entity. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Total number of students for all levels—Writing	The sum of the number of students tested with scores at all performance levels of the Writing domain for the entity. This field is calculated at the grade and demographic level of the selected LEA with the include indicator of “Y.”
Demographic Identification	The student demographic data is derived from CALPADS and reflects student demographics as captured at the time the student completes testing. Refer to the table that follows, Demographic Identification for Summative ELPAC .

Student Groups and Demographic Identification for Initial ELPAC

Student Group	Student Group Values	Demographic ID
All Students	All Students Note: Aggregation at this demographic shall include all students irrespective of their category. “Non-Binary” students should be included in every other aggregation except from the “Gender” categories of Male and Female.)	001
Gender	Female	004
Gender	Male	003
Primary Language	Spanish	228
Primary Language	Vietnamese	229
Primary Language	Mandarin (Putonghua)	230
Primary Language	Arabic	231
Primary Language	Filipino (Pilipino or Tagalog)	232
Primary Language	Cantonese	233

Primary Language	Korean	234
